

Conceived by André Ricard in 1970. Its name is a nod to the artist Lucio Fontana, who challenged the history of art by slashing his neat oil paintings. His was an art for the Space Age that sought to turn pieces into experiments in a new three-dimensionality. Santa & Cole presents Fontana together with a new floor version, both in white painted steel finish.

We extend the original design by introducing a floor-standing Fontana, composed of a discreet circular base that supports the structure and shade. In this case, the light is regulated by a discreet dimmer above the shade. Its versatility makes it perfect to accompany you in the peace and quiet of your home, in the frenzy of work or in a deep conversation in a restaurant.
