Table Lamps

SANTA & COLE

Based on his famous TMM lamp, Miguel Milá was commissioned to design the TMD tabletop version. The designer came up with the idea of a shade that is raised like a flag up a mast.

In order to reduce the number of sections, he replaced wood with metal and the cross-shaped base for a circular one, taking up less space on a crowded desk. The inventive engineering remains the same - the shade's height is adjustable via a rubber band stopper, and the light is switched on/ off by pulling lightly on the cable. A thin metal ring is used to wrap and direct the cable along the shaft. The elegant lampshade, made of white linen fabric, creates a warm ambient light. With this exquisite blend of materials, the TMD lamp adds warmth to any room, even with the light off.
